Skiable Terrain	2000+ acres

Why Ski Telluride?

Unmatched Terrain – Telluride has expanded by nearly 400 acres in the past two seasons, already adding to its reputation for some of the best skiing and snowboarding in Colorado. Telluride Ski Resort opened Revelation Bowl, the biggest news in the ski industry for the 08/09 ski season.

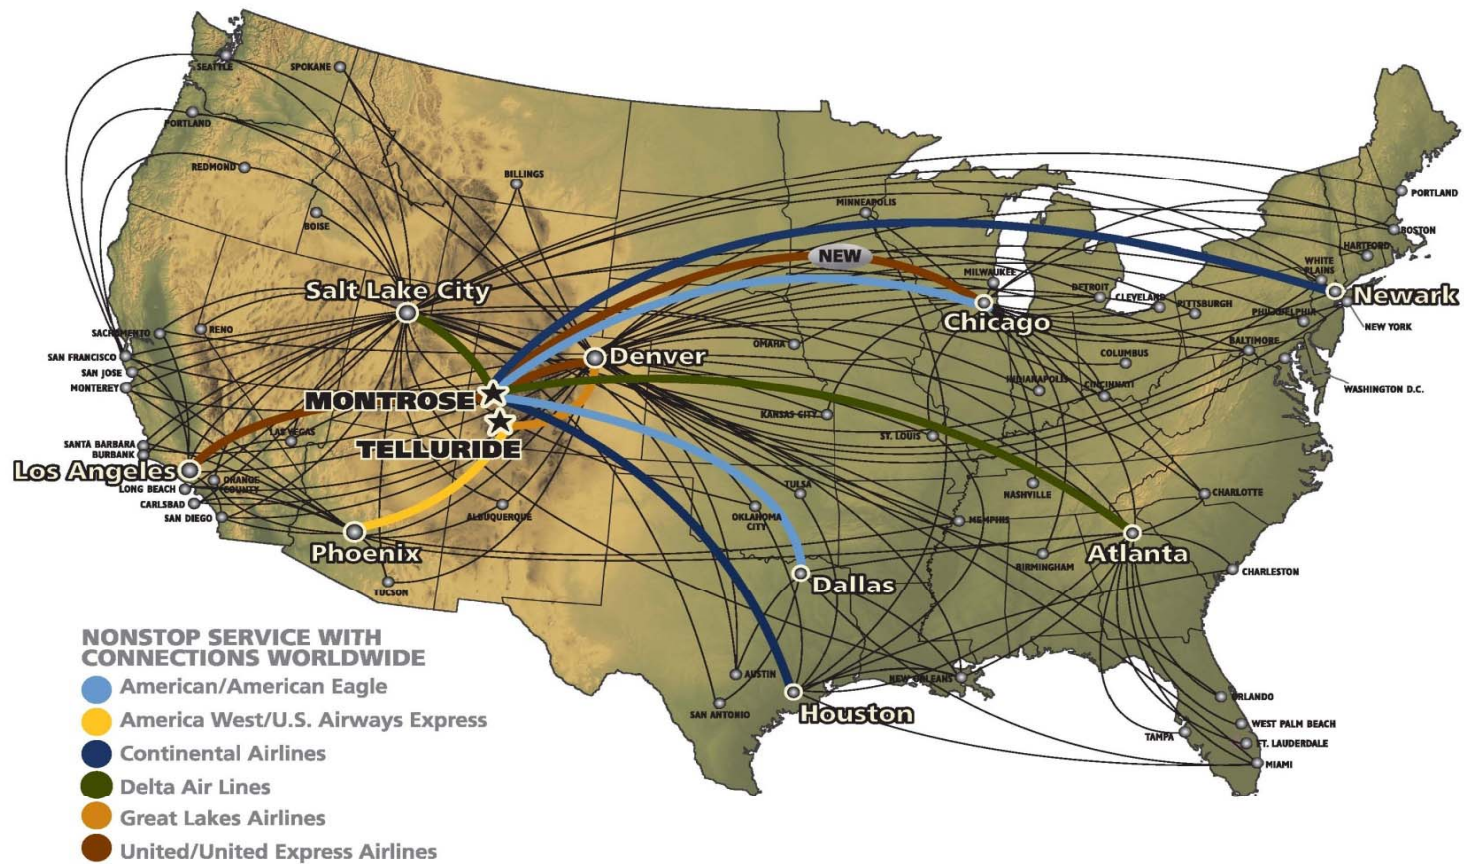

Unmatched Beauty – The San Juan Range of the Rocky Mountains is known as one of the most beautiful in North America, and Telluride is right in the heart with unparalleled scenery and spectacular views from all over the mountain.

Unmatched Town – Telluride is an authentic Colorado mining town that prides itself on a laid-back, inclusive attitude that makes everyone feel welcome. Over 52 bars and restaurants, fine dining to authentic taco stands.

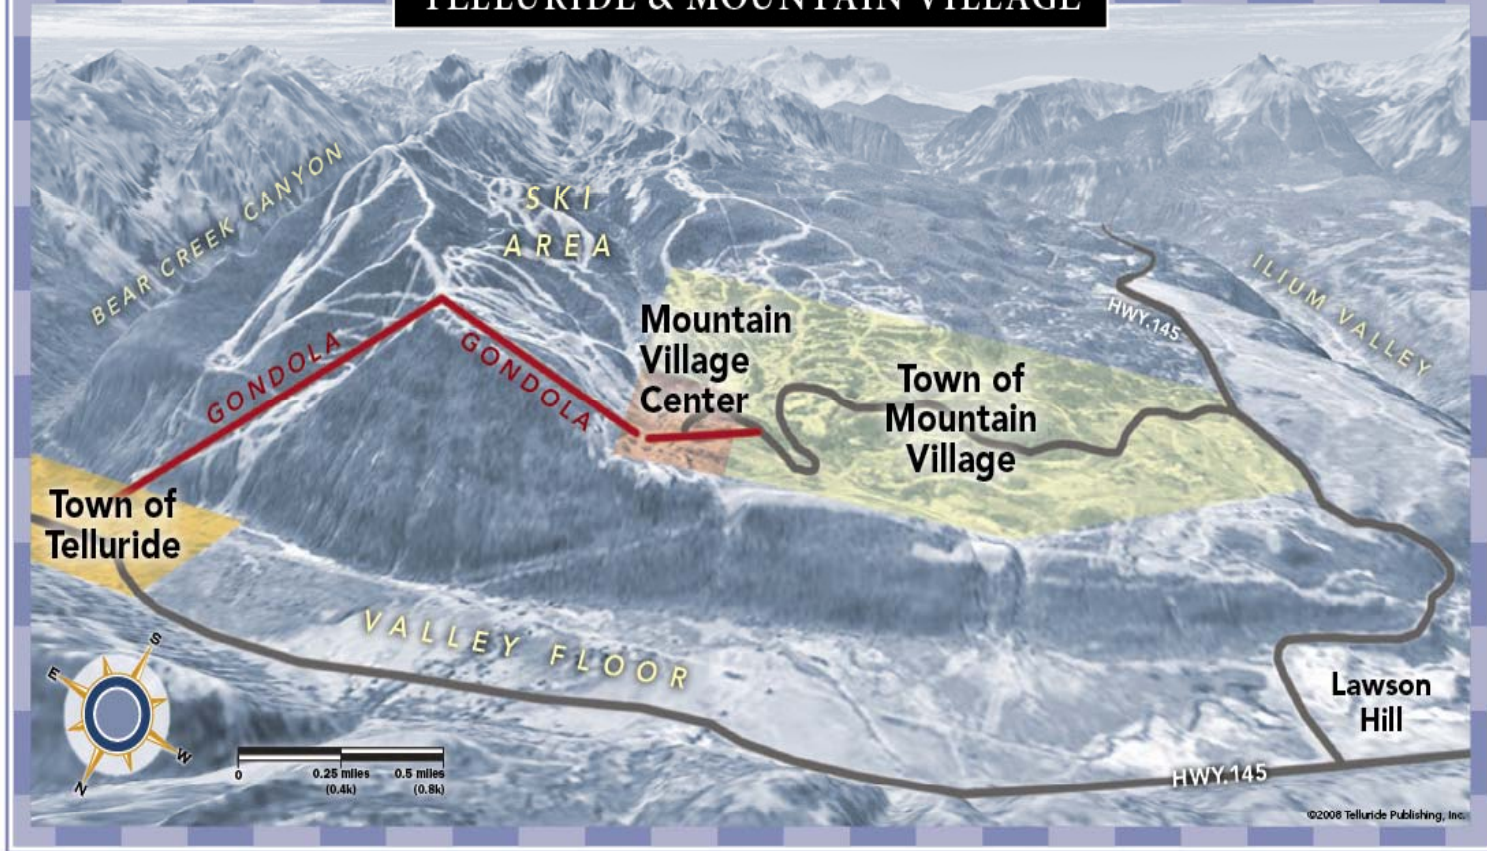

Unmatched Luxury – Boasting world class spas, five-star restaurants and hotels, plus a collection of fine boutique hotels. New this season, two exclusive luxury properties in the Mountain Village, lumière and Capella.

Unmatched Ease – Getting to Telluride is easier than you think with direct flights from 9 major U.S. hubs. Once you're here, the free gondola takes care of transportation (no driving), and the majority of lodging in both downtown and Mountain Village is ski-in/ski-out or within walking distance to the lifts and slopes.
