EXTERIOR VIEW

# VERY SNOWMASS. VERY VICEROY.

At Viceroy Snowmass, mountain life glows with modern spirit.

Here in the heart of Snowmass Village, the sophistication and sense of place that distinguish Viceroy destinations from California to the Caribbean now blend with the Colorado high country.

Within a lodge featuring interiors by acclaimed designer Jean-Michel Gathy of Denniston International Architects and Planners and a slopeside après destination by renowned tastemaker Kelly Wearstler, Viceroy Snowmass reveals unexpected Rocky Mountain details at every turn.

Savor the hotel's imaginative dining and lounging at Eight K restaurant and bar, Nest, an all-season poolside lounge and café, and the Ute-inspired wellness spa. Ski, board, bike or stroll in and out of the LEED\*-qualified resort residences, located steps from new Base Village restaurants, boutiques and entertainment.

From skiing, snowboarding, ice skating and sleigh rides, to hiking, horseback riding, festivals and concerts, the Rocky Mountains' limitless seasonal pleasures and a world of unexpected Viceroy privileges await.
