WHAT'S NEW AT JACKSON HOLE THIS YEAR?
THE TRAM IS BACK!

DECEMBER '08

NEW BASE TERMINAL

NEW 100 PASSENGER CABINS

New Aerial Tram at Jackson Hole Mountain Resort

Coming December 2008

(Teton Village, WY. March 1, 2008) – The countdown has officially started, larger and faster, “The Big One” is back, December 2008. Until then we will share our excitement through words, images, and video capturing the enormity of this project on tramformation.com. Content includes the construction project to date documented by award winning, film maker Peter Pilafian and will showcase the project continuing, the amazing people behind the machine and the incredible resort that houses the story.

In the early 1960’s visionary Paul McCollister laid eyes on the rugged peaks of the Tetons and began to imagine the possibilities these mountains held. His vision turned into a reality that would revolutionize North American skiing. Rising 4,139 vertical feet off the valley floor, the Jackson Hole aerial tram brought access to unparalleled terrain and a skiing experience unlike any other.

Committed to the evolution of our founding partners’ vision, Jackson Hole Mountain Resort is writing the next chapter or “Tramformation”. Midway through a two year construction process to build one of the most expensive, and technically challenging aerial trams in the US, we intend to ensure the new tram and Jackson Hole remain a focal point for those who love the mountains.

The new aerial tram at Jackson Hole Mountain Resort will be **twice the size** of the original, carrying **100 passengers**, have modern, sleek cabins, a visually inspiring base terminal, plus be faster, more efficient and tougher than its predecessor.

As well as the journey, it is the destination that captures the spirit of the Jackson Hole tram. **Soaring 4,139 vertical feet in 9 minutes** is unrivaled in the ski industry, cresting the Tetons with an endless choice of mind-blowing ski routes below, not to mention incredible 360 views, and only a few fellow disciples to nod at before you choose your line. It is unlike any other experience.

Jackson Hole is a year round adventure outpost, with incredible skiing and snowboarding in the winter and amazing national park access in the summer. The Mountain Resort combines incredible terrain for all levels of skiers and snowboarders, amazing on-mountain dining including the new \$10 million Bridger Restaurant complex at the Gondola Summit and a full service resort at the base. Upgraded lifts ensure quick mountain access to the 2500 acres and the 4,139 vertical continues to test every visitor that takes on the challenge. Coming in December 2008 will be a new 100 passenger Aerial Tram operating from the base to the summit of Rendezvous Mountain, an amazing continuous 4,139 vertical feet, which will cement this destination resort as the top ski mountain in the US. JHMR offsets 100% of our energy with renewable energy and is third party ISO certified as a "green" company, the second of only two ski resorts, and one of the smaller companies in the US, to achieve this recognition. Call us at 1-888-DEEP-SNO, 307-733-2292, www.jacksonhole.com.

Frontier Airlines announces new non-stop service from Denver to Jackson Hole:

Starting May 15th, 2008, Frontier announced their new non-stop air service from Denver to THE Rocky Mountain destination, Jackson Hole! Their quiet, fuel efficient Bombardier Q400 aircraft is ideal for flying into smaller markets and allows Frontier to bring its industry-leading customer service to underserved markets unreachable with its larger aircraft.

Jackson Hole, an International Playground

Improved air to Jackson, WY combined with new transatlantic services will cut our International guest's travel time in half compared to previous years. Jackson Hole is now one stop from Australia and New Zealand via Los Angeles, and England, France and Germany via Denver.

Bridger Restaurants at the Summit of the Bridger Gondola

Jackson Hole Mountain Resort proudly opened *three* new restaurants at the summit of the Bridger Gondola; elevation 9,095 ft in 2007.

- **Couloir** – Step off the Bridger Gondola in Teton Village at 9,095 feet and walk into a contemporary and hip new restaurant. Already recognized by Food and Wine Magazine as the place to eat (February 2008 issue) Guests will enjoy exceptional hospitality, delectable American cuisine with Rocky Mountain roots and warm service, not to mention a starlit Gondola ride in the evening. Previously leading kitchens at the renowned Four Seasons Resort Jackson Hole, Executive Chef, and Wes Hamilton returned to Jackson to open Couloir in 2007. Wes and his team offer a daily lunch menu and an evening bar menu in addition to the incredible four course, fixed price dinner menu four nights a week. The heated outdoor deck is a perfect place for lunch, while taking in views of Corbet's Couloir, the soaring heights of the Headwall and the incredible alpine setting. Reservations highly recommended for dinner: 307-739-2675. www.couloirrestaurant.com.
- **Headwall Deli** - Headwall Deli is located ground floor in the new Bridger Restaurant complex at the top of the Bridger Gondola. Menu items include home made soups, individually made gourmet sandwiches to order and fresh baked sweet goodies. Open for lunch daily throughout the winter.
- **Rendezvous** – Don't miss the new on-mountain spot for skiers and non-skiers alike, featuring individual serving stations offering fresh soups and salads, a variety of Asian delights, hand carved roasts, and gourmet grill meals. Providing the most incredible views of Rendezvous Mountain from its floor to ceiling picture windows, the Rendezvous has a large open plan indoor seating area for 150 people with attached south facing deck, weather permitting BBQ, and a full service bar.
- **Fizz n' Sizzle** - Champagne and s'mores - Romantic night or family fun - an evening not to be missed. Enjoy handmade s'mores over an open fire pit at the summit of the Bridger Gondola with a glass of Champagne
Wednesday - Sunday 5:30 - 8:30 pm.

Jackson Hole Mountain Resort Offsets 100% of Energy Use

Jackson Hole Mountain Resort committed to purchase renewable energy credits that offset 100% of our energy usage commencing June 1, 2007. JHMR will offset approximately nine million kWh per annum with this program. The renewable energy product purchased from Renewable Choice Energy, is made up of a combination of Wind, Biomass, Small Hydro, and Geothermal energy. Jackson Hole Mountain Resort is third party ISO certified as a "green" company, the second of only two ski resorts, and one of the smaller companies in the US to achieve this recognition. ISO 14001 certification is the most widely known and respected

environmental stamp of approval, which demonstrates responsible management of our environmental impacts.

For more info, visit <http://www.jacksonhole.com/info/faq.env.asp>

WHY JACKSON HOLE IS SPECIAL AND UNIQUE:

- Jackson Hole is the only true destination ski area in Wyoming, and has preserved the real Old West character of the Cowboy State. The town is both rustic and refined, offering all of the modern resort amenities in an understated way, with heaps of western hospitality.
- 97% of the valley is protected by the State and Federal government, and is undeveloped. The views from our ski area are of majestic mountain ranges, wide open spaces, and the mighty Snake River; not condos, strip malls, and 4 lane highways.
- The Jackson Hole Wildlife is abundant. It is very common for winter visitors to see Moose, Elk, Deer, and Coyote all around the valley, even on the ski hill!!
- Our proximity to Yellowstone and Grand Teton National Parks, and the National Elk Refuge, make Jackson Hole an hub for many great outdoor activities, outside of skiing & snowboarding.
- Jackson Hole has some of the most challenging ski/ride terrain in North America, and receives more snow than most other ski areas.

TOP 5 SELLING POINTS FOR JACKSON HOLE:

1. Jackson Hole has the best advanced skiing in the country.
2. Southern gateway to Yellowstone and Grand Teton National Parks.
3. Jackson Hole averages over 450 inches of snow annually.
4. Great Old Western Community
5. Scenery – Grand Tetons, Pristine Undeveloped Valley, Abundance of Wildlife

BEST RESORT CLIENT FOR JACKSON HOLE:

There is no "best client" for Jackson Hole (or any other resort). Anybody can have a great time in Jackson Hole. However, there is a type of client that is *ridiculously* easy to sell Jackson Hole to. That would be the expert skier/snowboarder. If a client tells a reservationist that they are an advanced skier, and want to go somewhere that can challenge them, Jackson Hole is a SLAM DUNK!

RECOMMENDATIONS / HIGHLIGHTS OF JACKSON HOLE:

- * **Yellowstone & Grand Teton National Parks** – Snowmobiling, Snowcoach Tours, And Dog Sledding.
- * **National Wildlife Refuge** – See 7,000 wild elk from a horse drawn sleigh.
- * **Jackson Hole Mountain Sports School** – Some of the best instructors in the world, and many Special programs like our world famous Steep & Deep Camps, and our Backcountry Guides
- * **Après Ski** at the world famous **Mangy Moose Saloon**.
- * Real Western nightlife at the **Million Dollar Cowboy Bar**.
- * Day trip to the **Powder Mecca** of Grand Targhee Resort.
- * **Dog sledding** at the base of Jackson Hole Mountain Resort.
- * **National Museum of Wildlife Art**.
- * Stroll the rustic **Jackson Town Square** with wooden sidewalks, elk antler archways, great shopping, Restaurants and nightlife.

SAMPLE VERBIAGE FOR BROCHURES & WEBSITES:

(Feel free to cut & paste or paraphrase as much as you like):

Located at the southern entrance to Grand Teton and Yellowstone National Park, Jackson Hole Mountain Resort has been delighting winter sports travelers for over 40 years. In addition to the spectacular scenery of the National Parks, Jackson Hole offers 2500 acres of skiing and snowboarding within our patrolled boundary, 17 km of Nordic adventure, and a true Old West experience visitors will never forget. The Jackson Hole Airport, located only 22 miles from the ski area, makes it any easy destination to get to from anywhere in the country. Winter visitors will surely enjoy a vacation filled with history, scenery, wildlife, and of course, world class skiing and snowboarding. Jackson Hole, Get Further Away!

Jackson Hole has long been known for its advanced and expert skiing, but that is only half of the story. The steep terrain on the upper mountain, and the deep snow (over 450” annually) in the Teton Range make Jackson Hole a playground for expert skiers and snowboarders. But what has been overlooked until recently is all of the great Intermediate (blue) and Novice (green) terrain at Jackson Hole Mountain Resort. Believe it or not, half of the resort’s 2500 skiable acres of terrain is rated blue and green, much of which is groomed nightly. The additions of the Sweetwater Triple Chair, the Bridger High Speed 8 Passenger Gondola, and two new High Speed Quad Chairs on Apres Vous Mountain have finally brought the intermediate and beginner terrain into the spotlight. Jackson Hole’s children’s facility, The Kids Ranch, complete with a kids-only snowpark called “Fort Wyoming,” was added in 1999, and has been delighting families ever since.

Of course, skiing and snowboarding are only two of the ways that winter travelers can enjoy Jackson Hole. There is so much more to see and do during a visit to Teton Country. Grand Teton and Yellowstone National Park frame our valley, and visitors can enjoy them throughout the winter. Snowmobiling in to Old Faithful, Yellowstone’s most famous geyser is the most popular excursion, but many visitors choose to experience the parks via dogsled tours, snow shoe hikes, and cross-country skiing adventures. Even a simple drive up Highway 191 to Moran, WY offers countless photo opportunities of the beautiful Grand Tetons as well as a chance to see some of Jackson Hole’s plentiful wildlife.

Moose, Elk, Bison, Coyote, Wolves, Deer, Antelope, Bald Eagles, and Trumpeter Swans all call Jackson Hole home during the winter, and visitors are all but guaranteed to see a few of these native creatures during their stay. It is common to see Moose wandering the ski trails at Jackson Hole Mountain Resort, and throughout the condominium properties in Teton Village. Coyotes prowl across from the parking lots at the ski area, and thousands of Elk spend their winter in the National Wildlife Refuge just north of town. For an amazing wildlife experience in Jackson Hole, visitors can tour the National Museum of Wildlife Art followed by a sleigh ride tour of the National Wildlife Refuge. No other ski destination offers visitors the ability to get up close and personal with wildlife like this!!

The skiing and snowboarding are legendary in Jackson Hole, and the natural beauty and wildlife add to the unique character of our valley, but it is the great Western Hospitality that welcomes winter travelers back again and again. From the fur traders who discovered the Grand Tetons, to the naming of Yellowstone as the world's first National Park, and Paul McCollister's dream of Jackson Hole Ski Area, American history runs deep in Jackson Hole. This history has influenced every part of our valley, including the people who live and work here. Establishments like the Million Dollar Cowboy Bar, and the Gunbarrel Steak and Game House reflect the heritage of Jackson Hole. Visitors to this amazing valley will experience this history and enjoy one of America's true great treasures.

Jackson Hole, Get Further Away!

COMMON MISPERCEPTIONS ABOUT JACKSON HOLE:

"Jackson Hole Mtn Resort is only for expert skiers (or 'is very difficult to ski,' or 'not good for intermediates/beginners' etc.)."

Jackson Hole has 2500 skiable acres of terrain, half of which (1250 acres) is rated intermediate and beginner. This is more beginner and intermediate terrain than many other major western US ski areas that are well known for their beginner and intermediate terrain (i.e. Beaver Creek - 1186 acres, Breckenridge - 879 acres, Copper Mtn. - 1119 acres, Keystone - 912 acres, Winter Park - 1241 acres, Deer Valley - 1138 acres, and many other smaller ski areas).

"Jackson Hole is not a 'family' destination."

There couldn't be anything further from the truth. The town of Jackson Hole was built for family tourism. In the summer the vast majority of our 3 million visitors are families, and for this reason, the town has always offered great family activities and amenities, like movie theaters, museums, children's playhouses, arcades, as well as a plethora of inexpensive accommodation and restaurants. In winter families also enjoy indoor and outdoor ice skating rinks and a tubing park.

Yellowstone and Grand Teton National Parks, as well as the National Wildlife Refuge, are all accessible to families in the winter via snowmobile, snowshoe, Nordic skiing, snowcoach, sleigh ride, and dogsledding, all of which are perfect family activities.

The ski area is more family friendly than ever, with the addition of the Kid's Ranch, the Fort Wyoming children's snow park, a half pipe, and a terrain park. Our Mountain Sports School is absolutely one of the best in North America (the best skiers in the world come to Jackson Hole to ski/ride, and many become instructors!!), and they offer a myriad of programs for children of all ages (2 months to 100+ years).

"Jackson Hole is difficult to get to (or too far away)."

With a jet serviced airport capable of accommodating aircraft as large as a Boeing 757 (188 seats), located only 7 miles from the accommodation in the town of Jackson, and 22 miles from the ski area, Jackson Hole is *more* accessible than most other ski areas in North America. Visitors really enjoy being settled in their accommodation within an hour of their plane touching ground, as opposed to being on a 2 hour (or more) shuttle bus after a long flight across the country.

The Jackson Hole Airport receives direct non-stop flights from Atlanta, Chicago O'Hare, Cincinnati, Dallas / Fort Worth, Denver, Los Angeles, Boise and Salt Lake City, making connections from all areas of the country very easy. In addition, the Idaho Falls Airport (IDA) is only 90 miles from Jackson Hole, and the Salt Lake City Airport is about a 5 hour drive from Jackson. Shuttle bus service exists from Idaho Falls and Salt Lake City to Jackson Hole.

"Jackson Hole is a lot colder than other ski areas."

This misperception lies in the assumption that the further north you go (in the northern hemisphere) the colder it gets, although latitude is not a great indicator of temperature. Our base elevation is lower than most other ski areas in the Rockies, and often times our temperatures are actually warmer than Colorado and Utah resorts. Our average daytime temperature in the valley throughout the season is 21 degrees Fahrenheit.

One unique occurrence in our valley that adds to the misconception that Jackson Hole is colder than other ski areas is the "**temperature inversion.**" Since our valley is surrounded on all sides by mountains (the origin of the name "hole") colder air often times gets trapped at the valley floor, while warm air is just 200 feet above the surface. The air on the mountain can be as much as 30 degrees warmer on the mountain, than at the base of the lower lifts. The trapped cold air often times creates a very low fog layer on the valley floor, while brilliant sunshine covers 95% of the mountain. This scenario creates the classic "skiing above the clouds" feeling that Jackson Hole photographers love.

"Jackson Hole is more expensive than other ski areas."

This misperception stems from the fact that flights into small market airports are often more expensive than to large city airports. However, the accommodation portion of a ski package to Jackson Hole is usually significantly less than other resorts. This is the case because we have an over abundance of moderately priced lodging in the valley. Our bed base is designed to house 3 million summer visitors, while we only register about 400,000 skier days each season. Winter is actually our *low season*.

When consumers research airfares on the internet, they only see the most expensive portion of a trip to Jackson Hole. When airfare is combined with lodging, lift tickets, and transfers, wholesalers are able to offer some very inexpensive packages to Jackson Hole.

JACKSON HOLE MOUNTAIN RESORT

MOUNTAIN STATISTICS

2007/08 SEASON

LOCATION: Jackson Hole Mountain Resort is located in Teton Village, Wyoming, just one mile from the entrance to **Grand Teton National Park**, and 60 miles from the southern entrance of **Yellowstone National Park**.

The Town of Jackson is located just 12 miles from Teton Village, and 8 miles from Jackson Hole Airport. Salt Lake City is a 5 hour drive south of Jackson Hole, WY.

DATES AND HOURS OF OPERATION:

December 1, 2008 through April 5, 2009
9:00 a.m. - 4:00 p.m. daily
Weather & business conditions permitting.

MOUNTAIN CHARACTERISTICS:

- Terrain – 2 mountains, Après Vous and Rendezvous
- 2,500 acres of in-bounds terrain, 3,000 acres of lift serviced backcountry
- Vertical drop of 4,139 feet
- Runs: - 38 expert runs, 50% of terrain
- 30 intermediate runs, 40% of terrain
- 8 beginner runs, 10% of terrain
- Base elevation: 6,311 feet/1924 meters
- Summit elevation: 10,450 feet/3185 meters
- Uphill capacity: 15,423 skiers per hour
- Open backcountry gate system accesses over 3000+ acres

LIFTS:

- **One Brand New Aerial Tram**
- One magic carpet (Ski School Only)
- One eight pax high speed gondola
- Two detachable quad chairlifts
- Four fixed grip quad chairlifts
- Two triple chairlifts
- One Halfpipe Rope-tow
- Two double chairlifts

SNOW: 12 Year Average Annual Snowfall: 457 inches (11.6 meters)

SNOW MAKING: 152 acres of snowmaking coverage.

GROOMING: Every novice (green) run and the majority of our intermediate (blue) trails are groomed nightly. There is at least one run groomed from the top of each lift except the East Ridge Chairlift every day. Grooming maps are printed, posted and distributed at the base of the ski area each morning, illustrating what slopes have been groomed in the past 16 and 8 hours.

TEMPERATURE: Average winter temperature is 21 degrees Fahrenheit (-6° C) in the valley. Temperature inversions caused by warm air rising and cold air staying on the valley floor will raise slope temperatures by 20-40° F.

SNOW REPORT: Please call 1-888-DEEP-SNO
or visit <http://www.jacksonhole.com/snowreport.asp>

SNOWBOARDING: Snowboarding is allowed on 100% of our mountain. The **SUPER-Pipe** and **Rodeo Grounds Terrain Park** are located under the Après Vous High Speed Quad, and **Little Britches Mini-Park** is located under the Teewinot Chairlift. All terrain features are for both skiers and riders.

JACKSON HOLE MOUNTAIN RESORT FACILITIES:

- **Jackson Hole Mountain Sports School**

Individual instruction, video evaluations, race clinics, backcountry guide service and Wild West Adrenaline Camp Series – Camps for Skiers and Snowboarders.
Mountain Sports School Sales: 1-800-450-0477

- **Jackson Hole Resort Lodging**

Providing wonderfully appointed Condominiums and Homes. Over 200 properties in all, ranging from Studios, to six bedroom Executive Homes.

Amenities for JHRL properties include; fully equipped kitchens, living area, fireplace/woodstove, high speed internet, complimentary skiers shuttle, Sundance Swim Club/Teton Sports club, access to hot tubs, ski-in/ski-out properties, luxury collection, and full service 24 hour front desk with concierge.

JHRL provides lodging for individual travelers, as well as, Groups, ie: ski clubs, weddings, family reunions, corporate retreats.

Please Visit: <http://www.jhrl.com/>

AIR TRANSPORTATION TO JACKSON HOLE:

- **Jackson Hole Airport (JAC)**

Jackson Hole Airport is located 7 miles from the town of Jackson, and 22 miles from Jackson Hole Mountain Resort. Jackson Hole Airport is serviced by 6 airlines: **American, Delta, SkyWest** (the Delta Connection), **United, United Express**, and **Big Sky Airlines**. Non-stop flights to Jackson Hole originate in Atlanta, Cincinnati, Chicago O'Hare, Dallas, Denver, Los Angeles-LAX, Salt Lake City, and Boise.

- **Idaho Falls Airport (IDA)**

Idaho Falls Airport is located just 90 miles west of Jackson Hole, and is serviced by Delta and Horizon airlines.

- **Salt Lake City Airport (SLC)**

Salt Lake City International Airport is 5 hours from Jackson Hole by car. Salt Lake City is a major hub for Delta Airlines

GROUND TRANSPORTATION:

- **Airport Shuttles:**

Alltrans Inc. operates shuttle bus transportation from the airport to most lodging properties in the valley. Contact Alltrans at 800-443-6133. Taxi cabs also greet each commercial flight into Jackson Hole Airport.

- **Car Rental:**

Visitors who would like the freedom of having their own vehicle during their stay can rent a car from one of the following Rental Car agencies: Budget Rent-A-Car, Dollar Rent-A-Car, Eagle Rent-A-Car, Hertz Car Rental, and Thrifty Car Rental.

- **Public Transportation:**

The S.T.A.R.T. bus provides public transportation around the valley for residents and visitors alike. S.T.A.R.T. offers a free town shuttle that circles the businesses and lodging properties within the Town of Jackson. Shuttles between the Town of Jackson and Teton Village travel every 20 minutes during the ski day, and about every hour until 11:00 pm. The shuttle between the Town of Jackson and Teton Village costs \$3.00 per ride, however visitors can purchase discount coupon books from their lodging property which offer 10 rides for the price of 8.

SNOWMOBILING: Jackson Hole is blessed with some of the most exciting and scenic snowmobiling venues in the world. The most popular snowmobile destination in the area is Yellowstone National Park. Visitors can take a guided tour to Old Faithful, or rent a sled of their own and tour the park at their leisure. Contrary to some rumors **snowmobiling will be allowed in Yellowstone National Park for the 2007/08 season**. In addition to the park, there are plenty of other areas to visit on snowmobile around the valley, from wide open bowls and gladed trails, to wildlife adventures and hot springs tours.
